TEKsystems Scholarship:
Women in Information Technology

We are pleased to announce a joint scholarship program between **TEKsystems and Champlain College-Saint Lambert** to support excellence for women in the field of Information Technology.

About TEKsystems:
Our purpose is to create significant opportunity for people to achieve personal goals through career success. We take this a step further to lead inclusively and drive diversity in our markets and so we want to encourage more women to pursue careers in the IT field.

****
